Special Issue from the 3ʳᵈ International Congress on Mathematical Modeling for Social and Environmental Sciences (MASSIF2018), April 25-27, 2018, Euro-Mediterranean University Fès, Morocco

Call for Papers "Mathematical Modeling in Natural Sciences"

We invite authors to contribute original research articles for a presentation during MASSIF2018 in the following potential topics that include, but are not limited to:

- **Ordinary, partial and delay differential Equations**
- **Fractional calculus and applications**
- **Chaos and dynamical systems**
- **Numerical methods and scientific programming**
- **Computational fractional calculus**
- **Computational Fluids mechanics, heat and mass transfers.**

The selection process will be based on both the reviewer's evaluations of the papers and the quality of the author's presentations at the conference.
Prospective authors should submit an electronic copy of their complete manuscript through email: **massif2018@gmail.com**

Lead Guest Editor

- **Prof. Dr. Abdon Atangana,**
  University of Free State, South Africa
  Email: AtanganaA@ufs.ac.za

Guest Editors

- **Prof. Dr. Zakia Hammouch**
  Faculté des Sciences et Techniques d'Errachidia, Morocco.
  Email : hammouch.zakia@gmail.com

- **Prof.Dr. Jose Francisco Gomez Aguilar**
  CONACyT-TecnológicoNacional de Mexico/CENIDET
  Email : jgomez@cenidet.edu.mx
